RETURN RECEIPT REQUESTED

July 26, 2005

Larry Sterling, Technical Service Manager
Milbank Manufacturing Company
1400 East Haven Street
P.O. Box 754
Kokomo, IN 46903-0754

Re: 2005 Annual Inspection

Dear Mr. Sterling,

This letter confirms Milbank Manufacturing had no major deficiencies noted during the Annual Inspection for 2005. It was noted, as per our conversation that there is a problem with Discharge point #1 flow meter data. Please keep the Pretreatment Team informed of any necessary changes that may affect your operations. If you have any questions or comments concerning the attached form or if we can be of any further assistance please contact Cindy Moore, Rhonda Huffer or myself at (765) 457-5509.

Sincerely,

Michael J. Mannion, Pretreatment Inspector

A handwritten signature in black ink, appearing to read "Michael J. Mannion", written in a cursive style.

Attachment: 2005 Annual Inspection Form

Copy: Greg Taylor, Superintendent
Rodger Fain, Pretreatment Coordinator
